At the end of your first year, you will then enter one of your reserved programmes in SMU directly as a 2nd year student. **You can even design your own major in SMU**, which is a first in Singapore. If you are interested in designing your own major, you can select our [Bachelor of Integrative Studies programme](#), where you will be mentored by professors to create your very own individualized major. How To Apply Step 1: Select College of Integrative Studies (CIS) in any of the choices below. Step 2: Select **up to two** degree programmes in which you would like to reserve a space as a CIS student, from the options below. Step 3: For students interested in designing your own major, you can choose Bachelor of Integrative Studies as one of your choices, where you will be mentored by a professor to design your own major. *Note: if you have selected 'Yes' to the 'Apply for Double Degree?' question below and are offered a double degree programme, your double degree will be based on the two degree programmes you have reserved spaces in.*

Double Degree Programme

Outstanding students will be considered for direct admission into the double degree programme. Successful applicants may enrol in a double degree programme consisting of any two disciplines (Primary Degree and Secondary Degree) in Accountancy, Business Management, Economics, Information Systems, Computer Science, Computing & Law, Software Engineering, Law and Social Science. The primary degree can be any one of the nine disciplines. The secondary degree can be any one, except Law and Software Engineering. Law and Software Engineering cannot be taken as a secondary degree. The offer of a place in the double degree programme will be based on your 1st choice and 2nd choice indicated in your online application form.
