Important Note for Permanent Residents and International Students
 If you choose to accept a course with a Tuition Grant offer, you will pay subsidised fees for your studies. In return, you have to fulfil a bond obligation by working in a Singapore-based company for three years upon graduation. To receive the Tuition Grant, you have to register on TGOnline, and sign a Tuition Grant Agreement with your sureties after your matriculation at the university.

If you choose to accept a course without a Tuition Grant offer, you will pay full fees throughout your studies. As a full fee paying student, you are not eligible for the Tuition Grant, scholarships and/or financial aid administered by the Singapore Ministry of Education (MOE) or the university that you have accepted at any time during the course of study. Full tuition fee-paying students do not need to serve the Tuition Grant obligation to work for a Singapore-based company for three years upon graduation from the university.

Please select the course you wish to accept.
