Set up in 2000, the Lee Kong Chian School of Business (LKC SB) has developed into a leading business school in Asia. As a pioneer in interactive pedagogy, we continue to lead the way with an experiential and innovative teaching method that leverages on the latest technology. Combined with a broad-based curriculum, global exposure and internships, we produce "go-anywhere" graduates by honing our students' business skills and leadership potential in a real-world setting. Located in the heart of the CBD as Singapore's only city university, SMU is intrinsically tied to the vibrancy of the surrounding arts and heritage precinct, as well as the city's shopping and entertainment hub. In 2011, LKCSB became one of the youngest universities in the world to be awarded both AACSB and EQUIS accreditations within the same year. Many employers regard our graduates as bold, confident and articulate, and a cut above the rest. Graduate employment records testify to the success of our graduates in landing meaningful careers across diverse industries. This is hardly surprising, given our bold but realistic goal—to be the best business school in Asia. Join us and become a sought-after leader in the business world.
