"The Master of IT in Business (MITB) has provided me with the necessary skill set of analytical tools and techniques as I embark on my career in data science. The professors not only cover key concepts but also challenge us to think out of the box with our projects to prepare us for the industry. The SMU Career Services team has also helped me tremendously during my job search and equipped me with the essential communication and negotiation skills to navigate through interviews and analyse my potential career path through individual coaching sessions. Looking back at how much I have grown, I know that I have definitely made the right choice to join MITB as it has opened many doors for my career. I believe that Data Science is not only a hot career path but it will be an essential skill in every industry moving forward."

## INDUSTRIES OUR GRADUATES ARE EMPLOYED IN

"When my son finished his undergraduate studies at SMU's Lee Kong Chian School of Business, his transformation was palpable - the confidence, content of what he says and the way he frames discussion points. Thus, I told myself that studying in SMU for my Master of Laws (LLM) may not be a bad idea at all. I browsed the modules offered which I thought were forward-looking and future-relevant. I believe I made the right choice in SMU with its excellent professors, modern facilities and convenient location. I particularly liked the comparative and holistic approach, as the approach taken in each module enabled us to discuss relevant legal issues from local to regional to global perspectives. I will forever be grateful to SMU."
